PERSONAL PROJECT

Image Gallery
Description : A simple image gallery where users can look at different types of pictures.
Tools & Technologies :
  HTML : Builds the gallery structure.
  CSS : Handles layout, image placement, and hover effects.
  JavaScript : Adds fun text animations when categories change.

Calculator
Description : A basic calculator for simple math like adding, subtracting, multiplying, and dividing. It has easy buttons and a screen to show results.
Tools & Technology :
  HTML : Creates the calculator layout with buttons and screen.
  CSS : Makes it look nice and neat.
  JavaScript : Manages the math and updates the screen.

Music Player
Description : A cool, simple web music player to play, pause, and switch songs. It has a moving progress bar and spinning CD animation, plus a song list with a "More Options" menu.
Tools & Technology :
  HTML : Sets up the player's layout.
  CSS : Adds style, design, and animations.
  JavaScript : Handles playing, pausing, song switching, progress, and song list.

COURSE WORK

- Data Structures and Algorithms
- Object-Oriented Programming System
- Frontent Development
- Database Management System
